*Le charme, le vrai.*

### The Chateaux & Hotels Collection presents a bold guide for 2010 under a new tagline: "Le charme, le vrai."

Known for elite taste and provocative luxury, the Chateaux & Hotels Collection has always preferred charm, hospitality and diversity in its propositions. Presided over for ten years by Alain Ducasse, the brand currently confirms the singularity of its selection of outstanding addresses and remarkable tables by revealing its new "true charm" tagline.

Sporting a bright orange cover, the 2010 Guide immediately sets the tone: more style than ever, secret and prestigious addresses, bargains, innovations and the keys to devouring pleasure. All told, there are 534 outstanding establishments, including 35 newcomers (easy to find thanks to the "New" symbol), 195 "Tables remarquables", including 18 new distinctions, and 65 spas selected for the pleasure of today's travelers.

Further novelty is found in the first pages of this road book, which have been designed in a magazine format. Seven new sections list addresses and offers that correspond most closely to the whim of the moment: an exceptional experience, gastronomy, being poolside or on the slopes...and even to act on behalf of the planet. An inexhaustible source of adventurous ideas that you absolutely must get a copy of as soon as possible!
